

## BATTLE IS ON. LOCAL ISSUES

Red Hot Election Contests in Eleven States Occur Tomorrow.

## CLOSE IN NEW YORK

Iowa and Ohio Safe for Republicans—Nebraska and Kentucky Wavering.

## BETTING FAVORS LOW

Eleven states will hold elections tomorrow; in ten of them state officers are to be elected, and there are several important legislative contests.

Republican success in Iowa is assured, both as to the state and legislative tickets, the only question being the size of the vote. The legislature chosen will have the selection of two United States senators.

In Nebraska Mr. Bryan has made an active canvass to hold the fusion and populist vote of past years together. That success will crown his efforts is not yet apparent.

Ohio has a state ticket to elect in a campaign in which the democrats have wholly eliminated Bryanism. Apathy has marked the campaign here.

The mayoralty contest in New York City and the possibility that Tammany may be overthrown, has overshadowed the legislative election.

In Pennsylvania the Quay and anti-Quay forces have centered their fight on the election of the state treasurer. Massachusetts has a state election with the democrats making a vigorous fight to elect Josiah Quincy governor.

Rhode Island is also concerned in a state election, with success for the republicans seemingly assured.

The New Jersey state election promises to be quiet, also that of Virginia, while Mississippi is merely holding a special election for two offices.

In Maryland former Senator Gorman has conducted the campaign because a democratic legislature means his return to the senate.

Specific reports at hand indicate general apathy on the part of the voters, except where some local issue has aroused them. The politicians regard the outcome tomorrow as merely a series of straws showing how the more important elections of 1902 may go. No great national questions are involved in any of the campaigns.

## Close in Kentucky

Louisville, Ky., Nov. 4.—The success of the democratic ticket has been indicated in tomorrow's municipal and county elections but it is apparent this morning that the race will be closer than was expected.

Des Moines, Nov. 4.—The democrat today concede a general victory for the republicans tomorrow but insist that they will capture several hitherto republican legislative districts.

Omaha, Nov. 4.—Both sides claim a victory in tomorrow's election. The race will be close according to the election prophets who say the fusionists are not working with their usual vigor and that his may cause the defeat of the democrats.

New York, Nov. 4.—The betting this morning on the mayoralty election is even for large wagers. Small bets are for Low as a slight favorite.

Norfolk, Va., Nov. 4.—The most exciting campaign in Virginia since the reconstruction will close tonight. All signs point to the election of the entire democratic ticket. Roosevelt's dining of Booker T. Washington was made an issue.

## TAMMANY BARREL IS OPEN.

Final Arrangements Being Made For The Greater New York Election.

New York, Nov. 4.—Today the Tammany barrel is open at all of the bungs, and the money that is to be

used on tomorrow will be distributed to the Assembly district leaders. The Assembly district leaders are making their final arrangements for the election, hiring the workers and the watchers and telling them what to do.

All of the men who apply for work and who are thought likely to vote against a ticket unless they are employed will be told to wear badges and to hang about the polling places all day long, ready to run errands, bring voters to the polls, and to do other odd jobs that are necessary in the carrying out of the organization's program for election day.

In addition to the men who will be employed for their votes the regular Tammany workers, who can be depended on all the time to carry out the orders of the leaders, will be on hand, and the number of Tammany badges that will be seen about the polls will exceed the number seen there at any previous election.

Tammany this year got out a greater amount of literature than ever before in its history and the demand for it was smaller than ever.

No one knows what the fight has cost the Tammany managers, and no one will ever know. Mr. Croker keeps no books of any kind and makes no accounting of any kind.

The democrats intend to carry the work up to the last moment and today have not changed their forecast, which is that Mr. Shepard will receive a majority in the greater city of about 50,000.

Robert C. Morris of the republican county committee today repeated his assertion of Saturday that Mr. Low's majority would be 70,000 in Greater New York.

## CARNEGIE RETURNS. TALKS RECIPROCITY

Pittsburg Millionaire Refuses to Discuss New York Politics, Saying He Was No Partisan.

New York, Nov. 4.—Mr. and Mrs. Andrew Carnegie were passengers on the St. Louis, which reached its dock late on Saturday. Mr. Carnegie refused to discuss New York politics, saying he was no partisan. He was questioned with regard to the proposed technical school at Pittsburg, and said he had received a report on the subject and when asked if it were sure the committee had asked for \$5,000,000, his reply was: "The committee is incapable of asking for money. The report was truly American and worthy of Pittsburg."

The subject of reciprocity was mentioned and Mr. Carnegie said: "Reciprocity is a fine word to speak, but when you come to arrange the details it is a most difficult policy. I have spent many pleasant hours talking on the subject with my dear friend, the late M. Blaine."

"Mr. Blaine believed in reciprocity," was suggested.

"Mr. Blaine believed in many things at first, as do many geniuses," answered Mr. Carnegie. "You can arrange reciprocity with one country, but that country favors you at the expense of all others. The best policy is to reduce protective duties. Washington's policy was best: 'Friends of all, allies of none.'"

## BLAZE AT MANITOWOC

Wisconsin Central Warehouse Destroyed—Large Amount of Flour Burned—Loss \$150,000.

Manitowoc, Wis., Nov. 4.—Seventeen carloads of flour on track, twenty-three carloads in the warehouse of the Wisconsin Central railroad company, the dock property of the road, and the warehouse mentioned, were consumed by the fiercest and most disastrous fire that ever visited this city yesterday. The origin of the fire is unknown. The loss is estimated at \$150,000. Fully insured.

The flour was the property of the Washburn-Crosby Milling company of Minneapolis, the majority of which was to be transferred and the rest in transit to other points. The burned warehouse and dock were built by the railroad company four years ago at a cost of \$45,000.

Miss Luella Croft of St. Paul, is the guest of her aunts on Washington street.

## CITY SHIVERED IN THE COLD BLAST; ADVENT OF WINTER IN WISCONSIN

Sudden Change in Temperature Gives Warning of the Arrival of the Winter Season in This State.

Janesville shivered yesterday. It was not that it was so cold, but rather that it was so much colder than it had been. To change from tranquil Indian summer to blustering winter is a shock. The thermometer tumbled over thirty degrees during the day. Vegetation has been mostly taken care of and little damage will result from the heavy freeze.

Illinois, Wisconsin and Iowa had the first real snow of the season yesterday. In some places the fall was heavy enough to interfere with railroad traffic. Farmers in many instances were caught unprepared and the cold wave which accompanied the storm may cause considerable suffering among stock.

Down the state of Wisconsin with yesterday morning's rising sun came boreal blasts that created a deep impression wherever they struck a wayfarer not warmly clothed, or a house where the heating apparatus was waiting the attention of the plumber.

Thirty degrees tumble in the thermometer within the hour, followed by snow and a driving northwest wind and rain, gave a large number of towns a severe climatic jolt and brought forth furs and heavy wraps.

The high cold wind was universal, while the snowfall, which at several points reached the depth of three inches, and in some portions even six inches, was more general in the northern portion of the state. Twenty-two degrees zero was the coldest reported.

Coming as it did upon the heels of almost balmy Indian summer days, the cold wave injured some plant life. Dispatches from La Crosse, Ashland, New Richmond, Oshkosh, Baraboo, Plainfield, Eau Claire and other points tell of the first cold snap of the winter.

Snow fell in the Dakotas and Minnesota and the chilly temperature was prevalent throughout the Mississippi valley. The cold wave is making its way east, and may reach the Atlantic seaboard today or tomorrow.

## ARGUMENTS IN THE SCHLEY CASE; LAST OF THE TESTIMONY IN TODAY

Large Flock of Young Women Were in the Court Room This Morning—Schley Devotes an Hour to Correcting His Testimony.

Washington, Nov. 4.—This is to be the last day of testimony to be submitted to the Schley court of inquiry. Immediately after the last witness is heard, unless the time of adjournment is too near, arguments will be begun. A large flock of young women were in the court this morning. Capt. Schley was called to correct his testimony. Answering a question by Lemly he said he had not megaphoned the correspondents on the dispatch boat Premier on May 28th that the Spanish fleet was not at Santiago.

Frank Richards, correspondent, who had charge of the Premier during the

war, was called to rebutt Schley's testimony, but the court ruled that it could not take his testimony. Schley then took the stand to correct his testimony. He had a severe cold and was very hoarse. Schley devoted about an hour in correcting his testimony. He made no changes of importance. When he finished Attorney Hanna, assisting Lemly began the arguments. Schley denied that he told Sigbee on May 26 that the flying squadron would return to Key West. He also corrected his testimony regarding the fifty shells passing over the fleet during the reconnoitre of May 31, to read "several shells."

## FATHER CROWLEY WAS ORDERED OUT

Dramatic Incident in Career of the Chicago Priest Who Has Been Excommunicated.

Chicago, Ill., Nov. 4.—For the first time in the history of the west a Catholic priest was yesterday ordered out of a Catholic church. The Rev. Father J. J. Crowley, ex-communicated two weeks ago for refusing to retract charges made against Bishop Muldoon and other ministers, visited the Cathedral of the Holy Name at State and Superior streets to attend the celebration of high mass.

He made no attempt to disguise his identity, and when he was recognized by the Rev. Father Barry, the chancellor of the archdiocese who is now acting pastor of the cathedral, and told to leave, he refused to do so.

Instead of attempting to reject him by force the Rev. Father Barry at once ordered the cessation of the celebration of high mass and the substitution of a low mass.

The ex-communicated priest, however, held his seat until the close of the service and then walked quietly out and, in the presence of the whole congregation of over 1,000 people, who followed him out to the sidewalk, boarded a car, lifted his hat and disappeared.

## PYTHIAN RECORDS DESTROYED BY FIRE

Grand Organization of the State Loses All Archives in a Milwaukee Warehouse Blaze.

Milwaukee, Nov. 4.—The Grand lodge of the Wisconsin Knights of Pythias and the local lodge of Elks suffered heavily in the fire at the Metropolitan warehouse, 179 Second street, early yesterday morning. The total loss by the fire was conservatively estimated at \$150,000.

In the building occupied by the Metropolitan Storage company were stored twenty boxes containing the books, records, archives, minutes, reports and paraphernalia of the grand lodge of the Pythians, and ten boxes containing the files of the grand lodge journals.

These comprise all the records of the lodge for thirty years of its existence, lodge No. 1 being organized in 1871. These records were invaluable to the order, and can never be reproduced. There was also stored in the ill-fated warehouse the paraphernalia, books and records of the sixteen defunct Wisconsin lodges, which reverted to the Grand Lodge when they ceased to exist. They were also destroyed by the fire.

## SAMAR IS BLOCKADED

Manila, Nov. 4.—Fourteen warships are maintaining a strict blockade of the island of Samar, with the result that the insurgents there are not able to obtain supplies of any kind from outside the island.

Captain Spellman and Lieutenant Jones of the Forty-third regiment, who were convicted of illicit trading and bribery, have been sentenced to five and three years' imprisonment, respectively. They have been brought to Manila en route to Fort Leavenworth, where they will be imprisoned.

The October report of the insular treasurer shows that nearly \$4,000,000 is available for appropriations. The financial condition of a majority of the provinces is slowly improving. Several of them have surpluses amounting to \$10,000.

Owing to the high prices of all kinds of supplies here the Philippine commission has issued an order making optional the payment of laborers in rice or money in the poorer districts.

## NEGRO SOLDIER HUNG AT MANILA

Washington, Nov. 4.—Details of the first execution of an American in the Philippines are just received. Harry Cline, a negro soldier, who killed three native boys was the victim. His native wife writhed on the ground in tears as the body shot down through the trap door. The hangman hesitated springing the trap whereupon Cline called from behind his black cap "Pull down the trap, damn you, or I'll come back and fix you."

## SIR THOMAS ON A VISIT TO PARENTS

The Canadian Railway Man Greeted Warmly by Friends and Relatives in Milwaukee.

Milwaukee, Nov. 4.—Sir Thomas Shaughnessy, with Lady Shaughnessy and their daughter is in Milwaukee for the purpose of a brief visit to Sir Thomas' parents, who live here. Sir Thomas arrived Saturday night in his special car and registered at the Plaster as "T. Shaughnessy and wife." It is Sir Thomas' custom to make at least one visit a year to his parents.

During his stay Sir Thomas was cordially greeted by many old friends who found him the same "Tom Shaughnessy" as old democrats to the core, in spite of his knighthood.

## MILWAUKEE TRAIN IS BADLY WRECKED

Passenger No. 58 Dashes Into a Northwestern Freight at Watertown Junction Yesterday.

Watertown, Wis., Nov. 4.—Passenger train No. 56 on the Milwaukee road, which arrives here at 2:50 a. m., was wrecked at the junction yesterday morning. It ran into a freight train on the Chicago and Northwestern road, which was crossing the Milwaukee road at this place.

The engine, baggage and mail cars were badly wrecked and two freight cars were demolished.

Arthur Molding was in charge of the passenger train, with James Carroll as engineer. The accident was caused by the air brakes refusing to work when the train was approaching the station. The engineer and fireman jumped when near the point of collision. No one was injured and some of the passengers, who were asleep did not know that anything unusual had happened.

Wrecking crews were sent from Milwaukee and Janesville and the wreck was cleared at nine o'clock. A freight train on the Milwaukee road which attempted to go east after the wreck was cleared was derailed by the spreading of the rails and ten cars left the track. The track was cleared for traffic before noon.

## DEER SEASON WILL OPEN ON NOV. 11

Shooting on the 10th Will Be Illegal—Hunting Will Close on and Including Nov. 30.

Madison, Wis., Nov. 4.—(Special)—There seems to be a misunderstanding among deer hunters as to the day on which the season opens. State Game Warden Overbeck has received several letters of inquiry as to whether it is on the 10th or 11th inst. To these he has replied that under the law the open season begins on the 11th, and it will be illegal to shoot deer on the 10th, which is next Sunday.

The law says that he closed season for deer "shall be between the 50th day of November and the succeeding 10th day of November in the year following (all the year excepting the last twenty days of November being thereby included in the closed or prohibited season for such animals)." Under this latter clause it is clear that shooting on the 10th is illegal. They may hunt on the 11th and up to and including the 30th, and then have five days in which to ship their deer home.

## MANY ARE HURT NEAR PEWAUKEE

An Omnibus Containing 18 Persons Rolls Down an Embankment, Injuring Several Occupants.

Pewaukee, Wis., Nov. 4.—An omnibus containing eighteen persons returning from a social at George McCollom's place on Saturday night was thrown down an eight foot embankment. The vehicle was overturned and the upper portion crushed to splinters.

All of the occupants were shaken and bruised, the more severely injured being: Mrs. Partridge, Mrs. Walter Clark, Ray Lobdell, Miss Cora Adams, Mrs. Anderson, and Miss Amy Jones.

## KISSING RECEIPTS AT A CHURCH FAIR

Soft Glances, Dark Piazzas and Moonlight To Be Part of the Stage Setting.

Chicago, Nov. 4.—Receipts for kissing, to be illustrated in tableaux by prominent society people of Morgan Park, are the moving card for the "Gibson type" entertainment to be held in Morgan Park, Friday evening. The proceeds of the entertainment will go to the Congregational church fund and it is expected that several hundred dollars will be realized.

A dozen young men and women will compound the kissing receipts, assisted by a youngster in the guise of Cupid, while two of Morgan Park's comely matrons will give directions. That the stage settings will be in keeping with the part can be seen from the nature of one of the receipts which reads:

To one piece of dark piazza add one little moonlight. Take for granted, two people. Press in two strong hands a soft hand. Stir—lightly two ounces of attraction, one of romance; add a large measure of folly; stir in a floating ruffe, and one or two whippers.

Another recipe is as follows: Dissolve half a dozen glances in a well of silence; dust in a small quantity of resistance; two of yielding. Place the kisses on a flushed cheek or two lips; flavor with a slight scream and set aside to cool. This will succeed in any climate if directions are carefully followed.

## READY TO ACT ON THE NEW TREATY

Lord Pauncefoot the Bearer of Revised Isthmian Canal Pact—Rapid Work Is Expected.

Washington, Nov. 4.—From this time hence for several weeks the inter-oceanic canal problem will be the great and absorbing one in Washington. Lord Pauncefoot, the British Ambassador, is here with the draft of the new Hay-Pauncefoot treaty in his pocket. He will probably call on Secretary Hay today and the negotiations will begin.

Congress assemblies on December 2 less than a month hence. The parliamenters have carried the treaty to a point that unless there is some question about the language employed in the British draft there should be no reason why the treaty should not be signed before the end of the session.

In the views which Secretary Hay and the British government have exchanged, the former has kept constantly in mind the objections raised by the senate in the original treaty, and has endeavored to meet them by framing provisions acceptable to the London cabinet and to the ratifying power in the United States. In the official negotiations Mr. Hay will not fail to observe the same policy.

## DECIDE ON THE RECALL OF WU

Washington, Nov. 4.—It is rumored in diplomatic circles today that Minister Wu's recall is not altogether a surprise at the state department. In fact it is averred that Commissioner to China Rockhill hinted to the Chinese government that the recall should not be unwelcome. The administration, it is said, did not take kindly to Wu's lobbying against the re-enactment of the Chinese exclusion bill. Wu said today that he had no official advice regarding the reported recall.

## Invalid Girl Is a Suicide

Salinas, Cal., Nov. 4.—Miss Annie Newcomer of Elkhart, Ind., committed suicide here by hanging herself from a bedpost. She had been in poor health for some time. Miss Newcomer came to San Francisco with the Epworth league delegates last summer and had been staying in Alameda until a few weeks ago, when she came here.

## BOOM BADGER DAIRY INTERESTS; IT SHOWS REMARKABLE PROGRESS

Cheese Factories in the State Number 1,540; Creameries 1,086; 1900 Butter Yield 80,000,000 Pounds.

Madison, Wis., Nov. 4.—Through a report and map just issued by the Wisconsin experiment station at the university some interesting data are obtained regarding the magnitude of the dairy interests of Wisconsin.

The number of cheese factories in the state is given at 1,540, creameries 1,086, combined cheese and butter factories 71, skim stations 65.

In the year 1900 the butter yield of the state reached the enormous total of 80,000,000 pounds, of which 55,000,000 was creamery make and 25,000,000 dairy. The total value of this amounted to \$16,000,000.

The total amount of cheese manufactured last year was 60,000,000 pounds, 45,000,000 being cheddar and the remaining 15,000,000 Swiss, Limburger, brick, etc. The total value of this product was \$6,000,000.

Green county in the southern part of the state contains the Swiss settlement of New Glarus, to which the state is chiefly indebted for the development of its dairy interests, contains four times as many cheese factories

## FLEETS INVADE TURKISH SEAS

Warships of European States Gathering on the Mediterranean.

## BLACK WAR CLOUDS

Object of Powers is to Counterbalance the Demonstration of France.

## CRISIS APPROACHING

Paris, Nov. 4.—Minister of Foreign Affairs Delcasse emphatically stated in the Chamber of Deputies today that France must have a full settlement and satisfaction from Turkey. The announcement made in reply to an interpellation by a deputy who asked if the fleet had been sent to Turkey for purely mercantile reasons or to end the Armenian massacres which were again menacing and thereby shaming Europe.

Delcasse replied that France after an exemplary patience could not be content with a simple protest. Demand from the Sultan, he said, "a full settlement of all Turkish obligations brought about by the quays claim and those of Mm. Lorado and Tubina."

Paris, Nov. 4.—Dispatches from Rome assert that the second division of the Italian Mediterranean squadron, which, as announced, left for Turkish waters with the supposed object of counterbalancing the French naval demonstration, will join the first division, which has been cruising in the eastern Mediterranean for some time. It appears, also, that the Greek warships Paara, Hydra, Spetsai, and Eubotas are now at Smyrna, where is also the Russian Mediterranean squadron. It is believed that the British squadron now at Piræus, Greece, will be ordered to proceed to Beirut, Syria.

Imperative Note Sent Turkey. M. Delcasse, minister of foreign affairs, has telegraphed M. Bapst, counselor of the French embassy in Constantinople, directing him—so it is authoritatively stated—to present at once to Towfik Pasha, Ottoman minister of foreign affairs, a note asking how the Turkish government proposes to pay the Lorado claim; and demanding the execution of the sultan's trade dealing with that matter. The note will also request satisfaction regarding the rights of France, which are defined in the various capitulations and treaties, which in some cases have not been respected, and in others have been encroached upon by Turkey.

## No News of French Fleet

Admiral Callard is expected to reach his destination within a few hours. The foreign office has received no news from him since his division left the other divisions of the Mediterranean squadron en route for Turkish waters, four days ago. It is pointed out that the absence of news is not surprising, as the instructions to Admiral Callard were to steer due south, and to avoid passing in sight of Bonifacio, Corsica, or traversing the strait of Messina, in order to prevent his movements being signaled. The vessels of the division carried only a normal supply of coal, but this would be much more than sufficient to enable them to steam 1,500 miles, the estimated distance they must cover before reaching their destination.

George W. Knox, the electrical engineer of the Beloit, Delavan Lake and Janesville electric line was in the city Saturday in company with T. S. Nolan, looked over the proposed route of Mr. Hurd's line to Delavan, Elkhorn and Geneva City. Mr. Knox is to be the electrical engineer for both systems.

## WILL HAVE RACES IN MIDAIR

From the Londoners Form Aero Club—  
Weekly Ascensions.

New York, Nov. 4.—A dispatch to the Herald from London says: The Daily Mail gives an account of the birth of the Aero club, which will devote itself to ballooning. As the balloon of the future promises to become an automobile, it is not strange that the Aero club should be the offspring of the well-known automobile club, which will immediately acquire the balloons of one or more expert aeronauts. Thus equipped its members will hold races in midair and other contests. Every week there will be ascents. This will be confined to members of the club. M. Santos-Dumont is to be an honorary member, and the Hon. John Scott-Montagu, the Hon. C. S. Rolls, Sir David Salmons, Col. Temple, R. E. Paris Singer, the Rev. J. M. Bacon and officials of the Automobile club are all mentioned as supporters.

"If the success of the movement in France be an augury," said a well-known automobilist, "then the success of the new Aero club in Great Britain is assured. Aeronautics are the cult of the future. We want more roads. We shall find them in the air."

## CLIMBS A LADDER TO KILL.

Amsterdam (N. Y.) Man Shoots Husband, Wounds Wife and Shoots Self.

Amsterdam, N. Y., Nov. 4.—Frederick Bankert, having gained admittance at 2 o'clock a. m. to the apartments of William Green, who lived in the second story of a house on Elizabeth street, killed Green by shooting him in the neck with a revolver and delivering a blow with a hatchet. Bankert also shot Mrs. Green and cut her head with the hatchet, inflicting fatal wounds, and then shot himself through the heart, dying instantly. Bankert gained entrance to Green's apartment by climbing up a rope ladder on the outside of the building and entering a window. He was a suitor of Mrs. Green before her marriage, but his love was unrequited. For this reason he shot her on Nov. 23, 1895, and cut her with a razor, but she recovered from her wounds. For this crime Bankert was sent to state prison and was released from there about six months ago.

## WAR MOVE PLEASES FRENCH.

Only the Opposition in Parliament Against Turkish Policy.

New York, Nov. 4.—Commenting upon the departure of the French fleet for the Levant the Paris correspondent to the London Times and the New York Times says: The French opposition is now menacing the government because it sent out the squadron to the Levant without the permission of the parliament. The correspondent remarks that it is folly to expect that the French government would deliberately inform another government in advance of its intention to support the arguments of diplomacy by force of arms. A great majority of impartial Frenchmen support the action of the authorities. In fact the invasion of the brilliant and strange world of the Orient by a French fleet fires the popular imagination and relieves the monotony of events by which France has been seriously bored.

## Plan a Home for Teachers.

Bennington, Vt., Nov. 4.—A corporation has been organized here to secure a site to build a Home for Indigent Female Teachers. The sum of \$35,000 was left seven years ago by Miss Lucy J. Ruggles, for years a prominent teacher in the West and South, to be used to found such an institution. The will was contested by relatives, but was upheld by the Supreme Court. The fund now amounts to \$40,000. The work of constructing the home will possibly be begun next spring. Charles H. Darling is trustee for the estate.

## Germans Are Exasperated.

New York, Nov. 4.—The Berlin correspondent of the London Times and the New York Times says German exasperation at the letters from Gen. Voyron to Count von Waldersee is fomented by the German press. The Neueste Nachrichten infers that the old French hatred of Germany remains in spite of its temporary abatement. The Vossische Zeitung says Gen. Voyron's praise of French humanity is a reflection on Germans and a sidelight on some of Emperor William's speeches.

## Church Plan May Fail.

Cleveland, O., Nov. 4.—The Rev. John Copeland of Rochester, N. Y., has received no encouragement from Memorial Post, G. A. R., of this city in the matter of erecting a McKinley church in Buffalo. Memorial post declined to contribute windows to the proposed edifice, and also refused to head an organization to include all the other local G. A. R. posts for such a purpose.

## Callahan Breaks Down.

Omaha, Neb., Nov. 4.—The trial of James Callahan, charged with perjury, came to a temporary close owing to the accused being taken ill in court, due to the nervous strain. Young Cuddey was on the stand at the time the defense trying to prove that he was addicted to excessive cigarette smoking.

## Rich Woman Found Dead.

Manchester, N. H., Nov. 4.—Mrs. Emeline R. Balch, the richest woman in New Hampshire, was found dead in a bathtub at her residence in this city.

## Russian Warship Refloated.

Copenhagen, Nov. 4.—The Russian battleship Perseviet, which went ashore on the island of Langeland, has been refloated.

## FISK'S SLAYER IS DEAD.

Edward S. Stokes Expires at His Sister's House in New York.

New York, Nov. 4.—Edward S. Stokes, the slayer of Jim Fisk, is dead at the home of his sister, Mrs. Howard McNutt, 731 St. Nicholas avenue. He passed from unconsciousness to death seemingly without pain. Stokes' murder of Fisk, the partner of Jay Gould, was one of the most startling tragedies in the history of New York. Millions of millionaires were concerned. After leaving prison Stokes went to live at

EDWARD STOKES.

the Hoffman house in New York, the owner of which, Cassius M. Reed, had furnished Stokes with money at his trial. In 1882 John W. Mackay loaned Stokes \$370,000 to enable him to become a partner with Reed in the Hoffman house. Stokes decorated the house with costly paintings. He managed the house until forced out under foreclosure and receivership in 1897.

## Plan a Prodigious Tunnel.

St. Petersburg, Russia, Nov. 4.—A bold, remarkable project is receiving attention among Russian engineers. It is proposed to construct a tunnel under the main chain of the Caucasus mountains from a point forty miles south of Vladikavkas. The tunnel will be twenty-three miles long and cost \$75,000,000. As soon as the Trans-Siberian railway is finished, it is believed, this Caucasian tunnel, which has the warm support of the czar, will be commenced. From a military and commercial point of view the work will be of vast importance, as the only direct communication with Trans-Caucasia from southern Russia is by an ordinary road from Vladikavkas to Loms.

## Astor May Be a Mayor.

London, Nov. 4.—William Waldorf Astor is to be invited to accept the mayoralty of Maldenhead for the coronation year. The retiring mayor is W. H. Grenfell, M. P., whose place at Taplow court adjoins Mr. Astor's and has been the scene of more fashionable honeymoons than any house in England. Mr. Astor is not now on the burghers roll of the town of Maldenhead, but it is proposed to get over this difficulty by making him a freeman of the borough. He would receive no salary as mayor and the duties are purely ornamental and nominal.

## Sik Company in Trouble.

Roston, Mass., Nov. 4.—Judge Colt of the United States circuit court for this district has appointed Theophilus King of Quincy and Edmonds Putney of New York receivers for the Bureka Sik company, which has offices in this city and a factory at Canton. The appointment was made upon the petition of William R. Lyle & Co. of New York, creditors to the amount of \$120,000. The liabilities of the company amount to \$390,000, of which \$385,000 is owing on notes and \$5,000 on incidental bills and accounts not yet rendered. The value of the assets is not known.

## Vitality, nerves like steel, clear eyes, active brain, strength, health and happiness comes to those who take Rocky Mountain Tea, made by Madison Medicine Co. Sec. Smith's Pharmacy.

## Schoens Leave Car Company.

Pittsburg, Nov. 4.—Charles T. Schoen, founder of the Schoen Pressed Steel company and organizer of the Pressed Steel Car company, together with his son, E. A. Schoen, second vice president, have resigned from the directorate of the Steel Car company and disposed of most of their holdings of the company's securities. W. H. Schoen will remain as first vice president. Charles T. Schoen will devote his time to the new \$5,000,000 company, which he is launching with Charles M. Schwab and others to manufacture rolled steel car wheels.

## Golf Train in Wreck.

Chicago, Nov. 4.—More than a dozen persons were severely bruised and a hundred more badly frightened in a wreck at Midlothian Country club grounds, caused by the failure of the air brakes on the special train carrying golfers over the club's private railroad to stop the cars. The train ran past the station and came to a sudden stop against the embankment, throwing the passengers, most of whom had already arisen to get off, against the seats or to the floor.

## Appointed by the President.

Washington, Nov. 4.—The president has made the following appointments: War—Charles B. Nichols, surgeon of volunteers, rank of major; Joseph H. Herron, captain of cavalry; James H. Mitchell, captain artillery corps; George C. Broome, provisional regiment of infantry; Charles Andrews, surgeon of volunteers, rank of major; Eugene Van N. Bissell, second lieutenant, cavalry.

## Miss Harriet Hurman of Albany was the guest of friends in the city today.

## Burke Again Indicted.

Chicago, Nov. 4.—Robert E. Burke, former city oil inspector and political adviser to the mayor, has been indicted by the grand jury and it is announced that he has parted political company with Mayor Harrison forever. Burke and his former chief deputy in the oil office, Max Prager, were indicted on upward of twenty counts. The indictment is predicated generally on the conspiracy act and covers 179 typewritten pages. The first sets of counts are founded on the conspiracy statute of the criminal code, section 46 a, which provides for the punishment of two or more persons conspiring to commit an offense against the state of Illinois.

## Industrial Inquiry Is Ended.

Washington, D. C., Nov. 4.—The Industrial commission will cease to exist on December 15 by operation of law. The members of the commission are now at home, mostly to vote in the coming state elections. A full meeting of the commission will be held next Wednesday, and the commission probably will remain in session most of the month, going over its final report. This will be embodied in one volume, and will be submitted to Congress about the time the official existence of the commission expires.

## Tries to Slay Empress.

Peking, Nov. 4.—While the dowager empress was embarking to cross the river to-day before entering Ho-Nan an assassin attempted to murder her and killed an attendant with a spear before he was cut down. The court has left Ho-Nan en route for Peking.

## Killed in Kentucky Saloon Row.

Middleboro, Ky., Nov. 4.—Louis Collins, aged 30, was killed in a general row in the "Keg House" saloon "Over the Rhine." His slayer is unknown. Collins lived on Brownies Creek in Harlan county.

And a living proof of what Dr. Pierce's Golden Medical Discovery will do for weak lungs. It makes new blood, and blood is life to the lungs, as well as to every other organ.

"Golden Medical Discovery" contains neither alcohol nor narcotics. It is not a stimulant but a strengthening medicine. "After using about five bottles of Dr. Pierce's Golden Medical Discovery my boy seems to be all right," writes Mr. J. W. Price, of Ozark, Missouri Co., Ohio. "He was very bad when I commenced to give him the 'Golden Medical Discovery.' The doctor claimed he had consumption, and we doctored with him until he was past walking. It has been ten months since he stopped taking your medicine and he is still in good health. We are very thankful to you for saving our son."

Children appreciate Dr. Pierce's Pleasant Pellets. They're easy to take and do not gripe.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

Announcement. To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

**Francis Murphy League**  
There was a very interesting meeting of the Francis Murphy Temperance league at the Y. M. C. A. building yesterday afternoon. A large number of men were present and many of them took part in the meeting of which President A. E. Matheson had charge. The earnest testimonies of men who have found the happiness and peace of sobriety through the Francis Murphy league was a great inspiration to the workers in the league and spoke volumes for the good which the organization is doing. J. C. Kline led the singing and there was some excellent music by the Y. M. C. A. orchestra.

**Ohrmundt-Tobian Wedding**  
Miss Ormanda Ohrmundt of Lebanon and Oliver Tobian, formerly of Watertown were happily married in this city at the home of the groom's relatives in the Mitchell block, yesterday afternoon at 3:30 o'clock. The ceremony which united them in matrimony's holy bonds was solemnized by the Rev. James Churn, pastor of the First M. E. church. It being the first time that he has read the marriage service in this city. After congratulations a wedding luncheon was served. Mr. and Mrs. Tobian have gone to their new home in Rockford, Ill., where the groom is employed.

**Burned by Kerosene Fire**

Mrs. Reiser and her young daughter, who reside at 104 Race street, were badly burned about the face and hands this morning by kerosene. Mrs. Reiser was trying to light a fire in the stove and was using kerosene in some manner, probably from a live coal in the stove, the kerosene in the can took fire and before the flames were extinguished Mrs. Reiser and her daughter were quite badly burned. Dr. E. E. Loomis was called and dressed the bruises of the sufferers and made them as comfortable as possible.

## JOHN STRAND IS HELD FOR TRIAL

He Waived an Examination in the Municipal Court, and Was Put Under \$1,000 Bail.

John Strand, who was arrested on the Northwestern train at Beloit Saturday by Officer Schelbel of the Beloit police force on the charge of larceny and turned over to Chief Hogan by him was brought into the municipal court this morning. A warrant charging him with the larceny of \$52 the property of Mark Wilson, from the dwelling house located at 64 S. Jackson street on the 30th day of October was read to the prisoner who waived examination. Judge Fifield found that an offense had been committed and that there was probable cause to believe the defendant guilty and held him for trial. On November 2 at 10 o'clock a. m. The bail was fixed by the judge at \$1,000 which the prisoner could not secure so went to jail.

Strand and Wilson had been taking to the town on the evening of the 30th and Wilson invited Strand to occupy his room with him for the night. During the night Strand awoke secured the \$52 from Wilson's vest and skipped out. He stated in court that he did not know why he took the money and was ready to take his medicine. He will probably be brought up tomorrow morning on petition and will plead guilty to the information filed against him by the district attorney and will receive his sentence.

## SENIOR CLASS WON THE DENISON CUP

Defeated the Juniors in a Well Contested Game Saturday by Score of 12 to 0.

The handsome cup offered by Rev. Robert C. Denison to the high school class winning the school championship, will belong to the Senior class for the coming year. This was decided Saturday afternoon when the Seniors defeated the Juniors by a score of 12 to 0 in one of the best high school games ever played at Athletic park.

True, four games remain to be played in the inter-class series before the winner of the cup will be announced, but there is no possibility of the Seniors losing the cup in those games for they are minor games being Juniors vs. Sophomores; Freshmen vs. Sophomores; Seniors vs. Sophomores and Seniors vs. Freshmen. Both the Seniors and the Juniors have defeated the Juniors and the Freshmen and the Seniors have defeated the Juniors twice, so that the championship is settled beyond the shadow of a doubt.

Saturday's game was the greatest game of the series and the excitement which attended it was intense. Great crowds of Seniors and Juniors girls waving pennants and banners and wearing their class colors, shouted themselves hoarse at each other in encouragement of their team. Both teams played hard straight football and the Seniors did not have a walk away by any means. It took hard and stubborn fighting to win and the first touchdown was not made until near the end of the first half. Then Bump went over the goal line and a few seconds later kicked goal, and the second half ended with the score 6 to 0 in favor of the seniors.

The second touchdown was made early in the second half by Sutherland and once again Bump sent the oval whirling between the goal posts and the score was 12 to 0. After that the Juniors braced themselves and the rest of the game was played almost entirely in the Seniors' territory.

## E. J. CARROLL IS AT HOTEL PFISTER

E. J. Carroll, formerly clerk of the Grand, who left for Dubuque, Ia., Friday afternoon to accept a position at the Julien in that city did not stay long at that house. The Milwaukee Sentinel of this morning contains the following:

"E. J. Carroll of Dubuque, Ia., took his place behind the desk at the Hotel Pfister last evening as the room clerk, succeeding C. H. Shaffer, who goes to Omaha to assume the management of the Hotel Grand hotel. Mr. Carroll was formerly connected with the Grand hotel at Janesville, Wis., and is well-known and very popular with the traveling public."

It seems that Mr. Carroll, on arriving at Dubuque, found a letter awaiting his arrival offering him a position at the Pfister that he had been after for some time. He took the first train for Milwaukee and now has the coveted position.

**Progress on City Hall**

The cold snap last night has caused the contractors at the city hall to hasten the work. Last night showed them what they might expect in a few weeks and every effort is being made to get the roof in place before the snow flies. All the stones of the arch over the main entrance were placed in position today. The heavy timbers and steel girders for the inside construction are being placed in position. From now on the work will show more rapidly than it has so far as the door cases and window frames take up space which below is solid masonry.

Mr. Rowson is confident that they will have the building all enclosed before there is any weather to interfere with the work.

**Indefinitely Postponed.**

Owing to the illness of the daughter of Mr. and Mrs. Thomas S. Nolan, the parties to be given at their home on Wednesday and Friday of this week, Nov. 6, and 8, have been indefinitely postponed.

## WILL LIMIT IMMIGRATION.

Commissioner General Powderly Has New Pact with Canada.

Washington, Nov. 4.—Commissioner General Powderly of the immigration bureau has entered into an agreement with the principal steamship and railroad lines of Canada for the regulation of immigration to the United States, through Canada. This agreement, which takes the place of the former arrangement, which expired three days ago, is regarded as much more favorable to the United States than the last one and will be more effective in keeping out the prohibited classes of immigrants. It provides that aliens arriving in Canada destined to the United States shall be inspected at Halifax, N. S.; Quebec, Point L'Evie, Vancouver, St. John, N. B., and Victoria, B. C., by United States commissioners, who shall issue certificates to such as are entitled to enter this country, and the holders of these certificates shall be entitled to enter the United States at any of the above named places without further examination. The examinations at those points shall be similar to those conducted at the ports of the United States.

## IN PERIL IN BALLOON.

Eight Men and a Woman Barely Miss Death.

San Francisco, Cal., Nov. 4.—Eight men and one woman missed death in the waves of the ocean by a hair's breadth after a harrowing flight in an escaped balloon at the height of 1,000 feet from this city to Pescadero, fifty miles south. For hours it was believed that every member of the party, bewildered by the dizzy height to which all were unaccustomed, had jumped or fallen to certain doom. When last seen as darkness set in the balloon was sailing faster than men on horseback could pursue it straight for the peaks and yawning abysses of the Santa Cruz mountains. At that time the car appeared to be empty. By some strange provision not yet explained the unmanageable airship with its helpless occupants came gently to the earth just before the sea was reached. But a little further and the eight occupants of the car must have been drowned. As events proved not one of them was even hurt, though all had to walk six miles to get to Pescadero.

## BONDS DID NOT MEET READY SALE

The \$65,000 worth of bonds issued by the city of Janesville to pay for the public library lot and the building of the city hall and the city hall lot are now in the hands of the treasurer and will be used for the purposes for which the bonds were issued.

The bonds did not meet with ready sale at private subscription, only \$22,500 being taken by private parties. The balance of the bonds went to the Rock County National bank. Parties who have small sums of money to invest did not care to put it out at interest where it would not net more than 3 1/2 per cent. Parties having large sums of money to invest in gilt edge securities at a low rate of interest they were a good investment.

## Runaway Horse With Buggy

A horse attached to a buggy became frightened at an overturned furniture van near the Second ward grocery this afternoon and ran away. The horse ran down East Milwaukee street across the bridge and up West Milwaukee to McLean's livery where it was stopped. Nothing was broken about the buggy or harness and the horse was uninjured. The runaway was caused by a van loaded with furniture and household goods tipping over in the street opposite where the horse was standing. The driver was standing on the sidewalk and did not have hold of the reins, by the time he gathered himself the horse was half a block away. Fortunately no damage was done.

## A Brace of Partridges

A small audience enjoyed one of the cleverest of English comedies "A Brace of Partridges" at the Myers Grand Saturday evening. It is impossible for a farce comedy to be its best without the aid of a large and appreciative audience but H. Reeves-Smith, Miss Margaret Robinson and their excellent English company gave a highly artistic performance.

## TRUNKS,

## AMERICA'S GREAT CROP OF WHEAT; 44,000,000 ACRES ARE IN THAT GRAIN

Government Crop Reports Show We Have 650,000,000 Bushels of This Cereal—Greater Than in Any Period of Our History.

Nothing better illustrates the greatness of the United States among the nations of the earth than our cereal crop for 1901. Corn, the great staple of the country, has sustained damage that will wipe out one-third of the normal crop. The indicated crop is far less than 1,200,000,000 bushels, and we need at least 2,000,000,000 bushels to meet our ordinary requirements. In dollars and cents this means a loss approximately of \$300,000,000. To any other country such a condition would mean famine. There would be nothing else to replace the loss even in part. With us, however, so great is our resourcefulness, and so bountiful is Nature, this loss, if not exactly replaced, is at least partially counterbalanced by a substantial gain in another wheat crop of the country—wheat—over the normal yield. Government crop reports show that we have in round numbers 650,000,000 bushels of this cereal. This is over 100,000,000 bushels greater than the average. Last year we had 520,000,000 bushels. The year before we had 547,000,000 bushels. Only once in our history have we exceeded this year's yield in wheat. That was in 1898, when we harvested 675,000,000 bushels.

That we should have a great wheat crop this year, far above the average, is not in itself a remarkable thing. Every other wheat growing country has had a similar experience at times. The remarkable thing is that such a greatly increased crop should come this year, when the corn shortage makes the wheat surplus particularly valuable and welcome. It almost proves the statement recently made by one of our great industrial promoters, that "Providence sits up nights to make things comfortable for the United States of America."

Of course, the increased wheat yield will not even remotely counterbalance in dollars and cents, the corn failure. It will make up less than one-third of the loss, say about \$100,000,000. But, coming at this time, it assures to the masses of the people plenty of cheap flour and cheap bread.

Another factor which makes the increased wheat crop particularly welcome and valuable is the fact that for

sign crops show a falling off this year. In consequence of this there will, of course, be a large European demand, which will necessitate a very substantial addition to the bank account of the wheat growing farmers. Since July we have been sending wheat abroad at the rate of 1,000,000 bushels a day. The farmers are, as yet, not receiving the increased price that the situation should command, because railroad and elevator interests are holding the price down until the major portion of the new crop shall be under their control, so that they, and not the farmers, may reap the benefit.

It is estimated that there about 44,000,000 acres in this country under wheat. To seed this acreage requires between 55,000,000 and 60,000,000 bushels. This will leave a net yield for domestic and foreign consumption of about 600,000,000 bushels. Here in the United States we consume nearly four bushels per capita, so that the amount that would be available under normal conditions, for export, would in round numbers be about 300,000,000 bushels. As it is, with the shortage in corn and potatoes, this export surplus will probably be materially cut down. In the first place, we may very conservatively figure on an extra half bushel per capita, or about 40,000,000 bushels in round numbers, for wheat flour and bread, to make up for the shortage in other food products for the human family. Another 10,000,000 bushels will probably go toward the feeding of live stock in the place of corn. All these factors will have a tendency to give us, eventually, substantial prices for such wheat as we sell abroad.

Unfortunately, the farmers most affected by the short corn crop will derive little benefit from the increased wheat yield, as surplus wheat and corn are seldom raised on the same farms.

The results of the short crop will probably not manifest themselves forcibly until next fall, as it will take a considerable period of time for the results of the shortage to work up from the farmers, upon whom they fall directly. One undoubted consequence of the corn shortage will be dearer meat—Saturday Evening Post.

## MANY SUPPRISES ON THE GRIDIRON

Michigan, Minnesota and Wisconsin Are in the Lead, and a Class by Themselves.

It was another day of football surprises Saturday. No contest could be classed as a real championship affair with the one exception of the Cornell-Princeton game, and that ended in an unsatisfactory way. Throughout the country, however, the so-called little teams humbled the pride of the big elevens, the tie games between Chicago and Beloit in the west and Yale and West Point in the east being striking examples.

The day's results leave the western championship situation about the same as it was a week earlier. Michigan, Minnesota and Wisconsin are apparently in the lead and in a class by themselves, with a post season game the only logical solution of the difficulty.

The great surprise in the west was the poor showing made by the maroons. A large score against Beloit was not generally expected. But after a glimpse of form shown in the Penn game, and another week's work behind closed gates, coupled with Stagg's statement to the effect that his team could no longer be called "undeveloped," the signal way in which the maroons failed in a tight finish was really disappointing.

Beloit, Wis., Nov. 4.—Saturday's game of the Beloit College team at Chicago has been the general theme of conversation since the news of the result reached this city. The demonstration of the students was an event not soon to be forgotten. Large bodies of young men, accompanied by a brass band, paraded the streets shouting and tooting horns, while others drawing a wagon gathered material for a bonfire.

The team was met at the depot by a cheering crowd, who drew those who came from Chicago to the college campus. The college bells were rung and the fire lighted as the team approached the campus, and the coeds, who were gathered in a body, sang a song prepared for the occasion, the whole giving the boys a royal welcome. While the fire burned the students executed a war dance and speeches were made by Acting President Collier and members of the team.
